the forces which have gone out from Washington to take the stump in opposition to free silver coinage, but to try to get every Democrat to recognize the true situation at Washington, and decline to take part in a war upon the President. We said:

"Day before yesterday another member of the Cabinet mounted the stump. Mr. Secretary Hoke Smith began a campaign of education in his State of Georgia. We ask our Virginia readers who favor call-ing State or district conventions of silver-ites in Virginia whether they are prepared enter the field as enemies of the ad-

What is the condition of things in Kentucky, Georgia, and elsewhere, brought about by indiscreet attacks upon the administration? Look, too, at Maryland. The Democratic State Convention has just denounced free silver coinage as a "per-nicious financial heresy," and inserted a plank in the State platform lauding the President in extravagant terms for the war which he has made upon financial heretics. We expect all the New England and Middle States to vote in the next Democratic National Convention with the Maryland Democrats and the enemies of free silver. With whom are the Democrats of Virginia to open a battle just now? We quote the News again;

saries may think or say upon the currency question?" We want the Democrats of Virginia to

refuse to go into a hopeless contest. What is the use of their dividing themselves into two hostile factions-one for free coinage and the other against free coinage-when they know beyond question that the result would be the success of the Republican party next year? We say such a the unthinking horse," into the midst of a battle which cannot but have the effect of breaking down the Democratic party. Why not be practical?

We quote the News again:

"The News has repeatedly stated that the silver question is not an issue in this year's State campaign. Nobody proyear's State campaign. Nobody pro-poses to make it so. But is the voice of our people to be entirely hushed and our opinion upon the silver question com-pletely side-tracked just in deference to the 'administration?'" No; but in deference to the welfare

of the Democratic party. Why should Virginia Democrats desire to place their State in the same condition as Kentucky, where a free-coinage man is now running for United States senator and a gold-bug for Governor? And where the Democratic party is hopelessly divided August, working in behalf of the monuat least for the present?

We expect the News to "fall into line" us before long. Its declaration that the silver question is not an issue in this year's State campaign, and that nobody proposes to make it so, causes us to hope that that paper will not advocate long the policy of making war upon the President's policy.

### Passing of the Populists.

The organization of the honest injun party by Grand-Sachem Mahone marks the absorption of the Populist party of Virginia into the ranks of the Republi-

The Populists will no longer be able successfully to pretend that they are "fighting both of the old parties."

So the coalition formed at Petersburg simplifies matters a great deal and enables the public to understand better than ever before that in real, sober truth, there are but two great political organigations in Virginia-the Democratic party

and the Republican party. So clear the ring for the big fight that is to come off this fall. The stake is a tremendous one-including most of the valuable State offices that are within the gift of the Virginia General Assemblyand we may expect that there will be some lively rounds. We know that it is in the power of the Demograte to win. We cannot fall of victory nuless we quarrel and divide and go to fighting among ourselves. In other words, Mahone, blg little injun as he is, cannot whip us, but

yard on the suburbs of Washington are a number of pear trees which the boys of the vicinity bave been depredating upon. Friday Nice Fingler detected a number of the boys in the act of rob bery, and relaing a five-shooter she fired two shots to frighten them off. One of the bulists took effect upon Green and killed him instantly. Miss Flagler surrendered herself to the police, but the Coroner's jury acquitted her of intentional homicide, and she was discharged. Sunday the boy's funeral took place, and Rev. Walter H. Brooks, paster of the Twelfth-Street Daptist church, made an address and severely criticised the discharge of Miss Flagler, and indulged in a flery denunciation of the way the blacks of this country are treated by the

whites. Brooks, we believe, was for some years a paster of a colored church in Rich-

Let Us Not Fight Single Handed. We were a little surprised to find in the President's message to Congress, dated August 8, 1893, the following reference to international bimetallic free coinage, Mr. Cleveland said:

"If, as many of its friends claim, sil-"If, as many of its friends claim, are ver ought to occupy a larger place in our currency, and the currency of the world, through general international co-operation and agreement, it is obvious that the United States will not be in a position to gain a hearing in favor of such an arrangement so long as we are willing to continue our attempt to accomplish the continue our attempt to accomplish result single-handed

President Cleveland thus gives a good reason why he ought to have appointed mmissioners under the law of the last Congress to proceed to Europe and bring about the "general co-operation and agreement" which he here by implication advocates. He says in substance that the United States will never secure free silver coinage so long as we continue to attempt to accomplish the result single-handed.

Who will join the President and seek to provide for free international coinage? (at the ratio of 16 to 1.) Let us not be content to fight single-handed.

We would say to our good friend of the Lynchburg News that when we warned the Democrats of Virginia a few days ago against engaging in a fight with the administration, we did not by any means intend to advise any Democrat to join the forces which have some set from the commerce of the world or confluct our international trade upon such basis as the general judgment of commercial nations may establish." "No matter, therefore, what our mone-

The School Board of Atlanta has changed the hours of tuition for the teachers of the lower grades from five hours, as they are now, to a term, stated by the Constitution to be from 8:30 A. M. to 4 P. M.; by the Journal, from 8 A. M. to 4:30 P. M. The reasons for this change seem to be that there are more pupils than can be taught by the teachers now engaged, and that, owing to extra expenses incident to the exposition, the city has no funds this year to provide extra teachers. It is proposed, therefore, to let the teachers do double duty by teaching two sets of pupils every day, and to compensate them for the extra work by 10 or 15 per cent. increase of galaries.

Dr. Hawthorne, of Atlanta, once of Richmond, has been preaching and writing against the bloomer bicycle business, on which account he has been severely criticised.
